Human Resource Analytics Lecture 17 Recruitment Analytics – 2

Dr. Abhishek Singh
Faculty-Human Resource Management
XLRI-Jamshedpur

Data collection - If you are collecting the perception based data always think who will give unbiased data

For Example – Candidate experience in interview process

- Selected candidate
- Rejected candidate

Attrition Analysis

Employee Initiated		Organization Initiated	
Avoidable (Dissatisfaction)	Unavoidable (Health, Maternity)	Discharge	Downsizing
Percent / Number	Percent / Number	Percent / Number	Percent / Number

**Attrition rate = Number of employees leaving / Average
number of employees * 100**

Attrition Index

Hires	Quit	Layoff and discharge	Other separation
Percent	Percent	Percent	Percent

Cost benefit analysis of Attrition

- Financial cost – (HR staff time)
- Replacement cost – (Cost per hire)
- Training cost
- Percentage salary hike for internal or external candidate

HR Planning Matrix

HR Planning Department wise or organization wise

Job category and level	Current Work force	Inflow (Number)	Out flow (Number)	Forecasted staffing	Recruitment Plan
	Number	Promotion	Promotion	(Number)	
		Transfer	Transfer		
		Demotion	Demotion		
Time to fill - In months					
Number of candidates need to be attract per vacancy • Employee referrals • Agency • Direct • Campus recruitment • Walk in • News Paper					
Expected Cost per hire - Amount					
Expected Lead Time -					

- What should be the recruitment philosophy of an organization?
- What kind of people, HR manager should hire, and retain?

Applicant Analysis

Age	Gender	Work Exp.	Education	City	Reference	Expected salary

Succession Planning – Department wise

CPP = Current perception of potential

A	Able to become a key leader in the function
B	Able to become the leader in the function
C	Able to progress to greater expertise
D	Has reached level of expertise
E	Is in the wrong area

- | | |
|--|--|
| • The percentage of posts without a designated immediate successor | |
| • The percentage of posts with no successor either now or long term | |
| • The percentage of posts on the plan becoming vacant | |
| • The marginal cost associated with having to fill senior positions externally rather than internally (Percentage hike for external candidate) | |

Thank You
