# Human Resource Analytics

Lecture 39

Employee Development Analytics - 2

Dr. Abhishek Singh

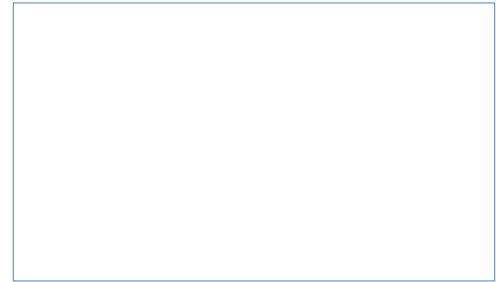

Faculty-Human Resource Management

XLRI-Jamshedpur

# Content

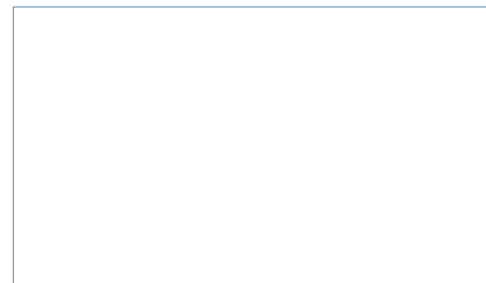

- Employee need assessment matrix
- Coach performance analysis
- Mentor performance analysis
- Outcome of coaching and mentoring session

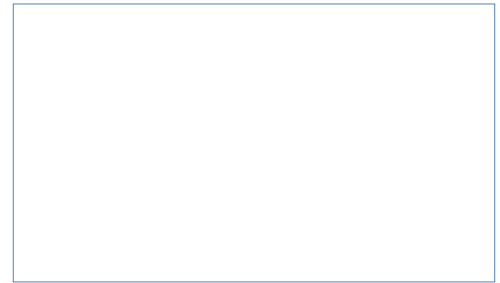

# Employee's need assessment matrix

## 360 feedbacks

| Skill | Self rating | Average Peer rating | Supervisor rating | Average Subordinate rating |
|-------|-------------|---------------------|-------------------|----------------------------|
|       |             |                     |                   |                            |
|       |             |                     |                   |                            |

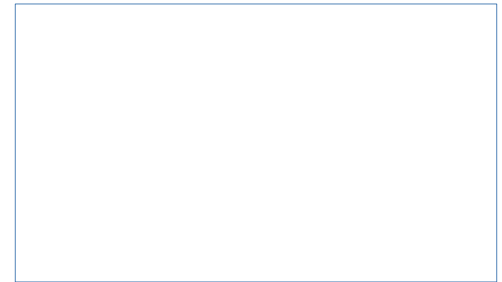

**If employee dealing with customer then customer rating**

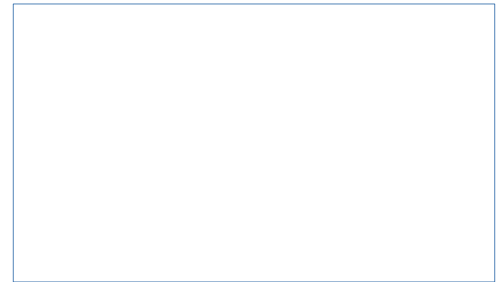

### Department wise

| Name of coach<br>Internal vs. External | Average performance<br>rating | Employee satisfaction<br>score | Average number of<br>days coaching provided |
|----------------------------------------|-------------------------------|--------------------------------|---------------------------------------------|
|                                        |                               |                                |                                             |

## Department wise

| Name of Mentor<br>Internal vs. External | Average performance<br>rating | Employee satisfaction<br>score | Average number of<br>days coaching provided |
|-----------------------------------------|-------------------------------|--------------------------------|---------------------------------------------|
|                                         |                               |                                |                                             |
|                                         |                               |                                |                                             |

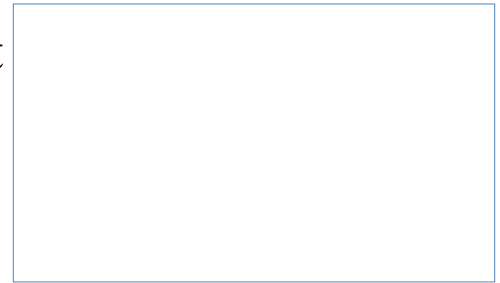

# Outcome of coaching and mentoring sessions

| Dysfunctional | Ineffective | Marginally effective |
|---------------|-------------|----------------------|
|               |             |                      |
|               |             |                      |

**Dysfunctional** – Increased deviance behavior, increased turnover,

**Ineffective** – Performance rating or goal achievement percent remains same

**Marginally effective** – Improved performance rating, decreased turnover

# Thank You
