Human Resource Analytics

Lecture 47

Performance Analytics II

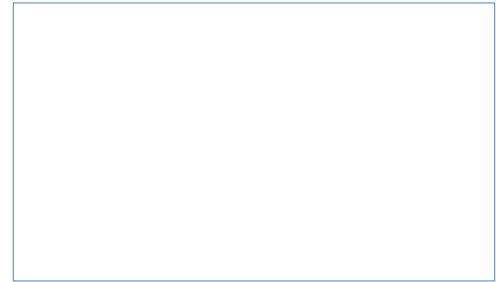

Dr. Abhishek Singh

Faculty-Human Resource Management
XLRI-Jamshedpur

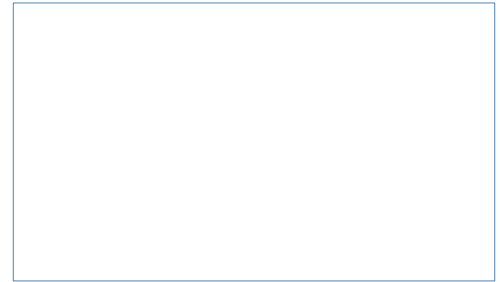

Content

- Goal clarity index
- Important metrics
- Understanding intentional performance rating distortion
- Deflate reasons (Department wise) based on employee complains
- Inflate reasons
- Team Performance
- Relationship between engagement and leader behavior
- Performance Rating Analysis

- In how many cases, skill rating and goal percentage mismatch is there.
- Average numbers of goals are not achieved
- Average numbers of goals are set for an individual in organization
- Average percentage of goal achievement (Department wise, age category, gender)
- Talent utilization percentage
- Unutilized competencies
- Unplanned time

Goal clarity index

To what extent did you clearly set your work plan for the last six months?

A. 25 % B. 50 % C. 75% D. 100%

To what extent did you share the same understanding of your work plan and priorities with your seniors in last six months?

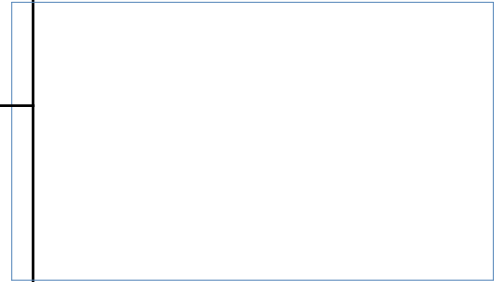

A. 25 % B. 50 % C. 75% D. 100%

To what extent were you able to put to use most of your capabilities in the last six months?

A. 25 % B. 50 % C. 75% D. 100%

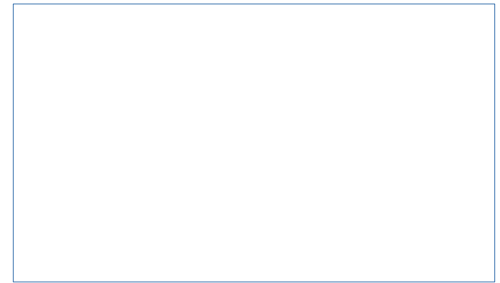

To what extent are you clear about the work plan and priorities for the next six months?

A. 25 % B. 50 % C. 75% D. 100%

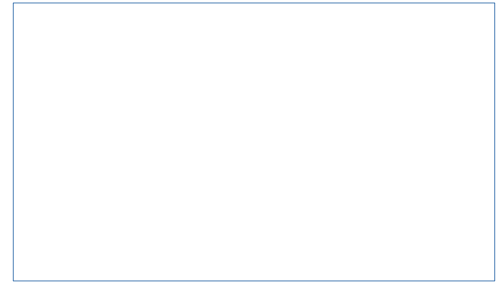

Some important metrics

- Promotion rate in a department = $\text{Number of promotions} / \text{Total number of employees in the department}$
- Performance appraisal fill rate = $\text{No. of employees filling PA without help} / \text{Total number of employees}$
- Appraiser literacy rate = $\text{Total number of trained appraiser} / \text{Total number of appraiser}$

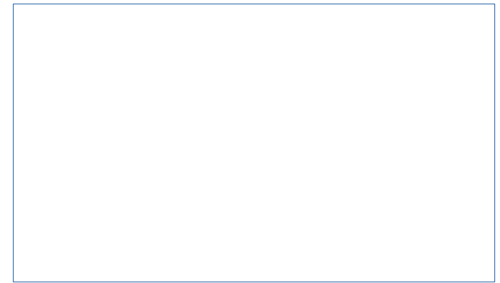

Understanding intentional performance rating distortion

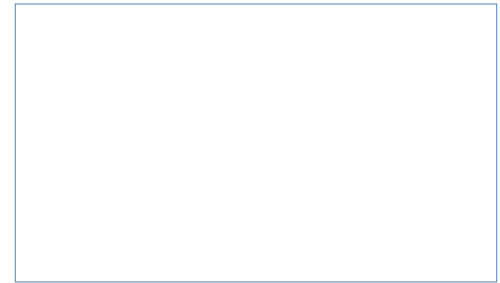

Deflate reasons (Department wise) based on employee complains

Shock employees	
Teach a rebellious employee a lesson	
Send a message that employee should	
Consider leaving	
Build a record of poor performance	

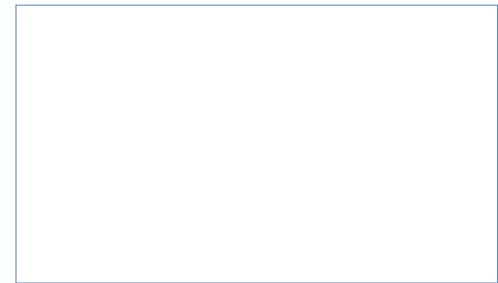

Inflate reasons

Maximize the merit raise and rewards	
Encourage employees	
Avoid creating a written record	
Avoid confrontation with employees	
Promote undesired employees out of unit	
Make manager look good to his or her supervisor	

Team Performance

	Manager X	Manager Y	Manager Z
Subordinates			
Seniors (boss)			
Colleagues			
Total score			

Relationship between engagement and leader behavior

What is your level of engagement at work	7					
	6					
	5					
	4					
	3					
	2					
	1	Never		Sometime		Every time
	How often does your leader treat you with respect					

Thank You
